

+162 Gym and Functional Routines for Footballers

Build explosive strength, speed, endurance, and physical power with gym-ready and functional-training routines designed to make a real difference out on the pitch.

Explosive Strength

Speed

Endurance

Power

Core & Prevention

Levels: Basic · Intermediate · Advanced

How to use this guide

This material brings together 162 training routines organized into five major blocks according to the physical capacity they train: Explosive Strength, Speed, Endurance, Power, and an additional Core & Injury Prevention block.

Within each block you'll find Gym routines (using weight-room equipment) and Functional routines (using bodyweight, cones, hurdles, and open space), split into three levels — Basic, Intermediate, and Advanced — with 6 progressive sessions per level.

BLOCK	AMOUNT
Explosive Strength	36 routines
Speed	36 routines
Endurance	36 routines
Power	36 routines
Core & Injury Prevention	18 routines

General recommendations

- Always do a 10-15 minute warm-up before any routine (joint mobility, activation, and easy jogging).
- Choose your level based on real experience, not ambition: it's better to progress well from the basic level than to get injured at the advanced one.
- Respect the indicated rest times: in strength and power work, rest is part of the stimulus, not wasted time.
- Don't repeat the same physical capacity (for example, two power sessions) on consecutive days.
- Hydrate properly and sleep at least 7-8 hours to allow for muscle recovery.
- If you feel joint pain (not muscular) or persistent discomfort, stop the session and consult a health professional.

Tip: use your PDF reader's search (Ctrl/Cmd + F) to jump straight to a routine by its number or a keyword.

Suggested weekly plan

Example weekly distribution combining the five blocks. Adapt it to your matches, team training, and fatigue level.

DAY	FOCUS	SUGGESTION
Monday	Explosive Strength	Gym routine + core (10 min)
Tuesday	Speed	Functional speed routine + mobility
Wednesday	Endurance (easy) or active rest	Basic circuit or recovery
Thursday	Power	Gym or functional routine, availability permitting
Friday	Speed + Core	Short, intense session, before a match
Saturday / Sunday	Match or rest	Stretching and recovery

As a general reference: 2 strength/power sessions, 2 speed sessions, 1 specific endurance session, and 2-3 short core blocks per week are usually enough for an amateur or semi-professional footballer.

Explosive Strength

Develop the ability to generate maximum force in the shortest possible time. It's the foundation for winning duels, protecting the ball, and jumping higher than your opponent.

Functional · Basic Level — 6 routines (#19 to #24)

Functional · Intermediate Level — 6 routines (#25 to #30)

Functional · Advanced Level — 6 routines (#31 to #36)

Gym · Basic Level — 6 routines (#1 to #6)

Gym · Intermediate Level — 6 routines (#7 to #12)

Gym · Advanced Level — 6 routines (#13 to #18)

Explosive Strength · Gym

Session objective: Maximum muscle recruitment with emphasis on the lower body.

MOVEMENT EXAMPLE · SQUAT

Barbell back squat

EXERCISE	SETS	REPS	REST
Barbell back squat	3	8-10 rep	60-90 sec
Barbell hip thrust	3	8-10 rep	60-90 sec
Box step-up with jump	3	8-10 rep	60-90 sec
Barbell row	3	8-10 rep	60-90 sec
Pull-ups (or lat pulldown)	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: Breathe: exhale on the effort (up phase) and inhale on the controlled descent.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Explosive Strength • Gym

Session objective: Strength applied to jumping and starting movements.

MOVEMENT EXAMPLE • SQUAT
Leg press (fast start)

EXERCISE	SETS	REPS	REST
Leg press (fast start)	3	8-10 rep	60-90 sec
Bulgarian split squat with dumbbells	3	8-10 rep	60-90 sec
Walking lunge with dumbbells	3	8-10 rep	60-90 sec
Barbell bench press	3	8-10 rep	60-90 sec
Barbell row	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: Warm up the hip and knee joints thoroughly before loading weight.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Gym

Session objective: Unilateral strength to balance both legs.

MOVEMENT EXAMPLE • SQUAT

Leg press (fast start)

EXERCISE	SETS	REPS	REST
Leg press (fast start)	3	8-10 rep	60-90 sec
Barbell hip thrust	3	8-10 rep	60-90 sec
Barbell row	3	8-10 rep	60-90 sec
Pull-ups (or lat pulldown)	3	8-10 rep	60-90 sec
Sled push	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: Film yourself from the side once a week to review your squat or lunge technique.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Gym

Session objective: Transfer of strength to initial acceleration.

MOVEMENT EXAMPLE • LUNGE

Walking lunge with dumbbells

EXERCISE	SETS	REPS	REST
Walking lunge with dumbbells	3	8-10 rep	60-90 sec
Barbell Romanian deadlift	3	8-10 rep	60-90 sec
Barbell hip thrust	3	8-10 rep	60-90 sec
Jump squat (light barbell)	3	8-10 rep	60-90 sec
Machine hip extension	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: Always aim for maximum speed on the lifting (concentric) phase, even with light loads.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Gym

Session objective: Combined upper- and lower-body strength.

MOVEMENT EXAMPLE • SQUAT

Leg press (fast start)

EXERCISE	SETS	REPS	REST
Leg press (fast start)	3	8-10 rep	60-90 sec
Bulgarian split squat with dumbbells	3	8-10 rep	60-90 sec
Walking lunge with dumbbells	3	8-10 rep	60-90 sec
Barbell bench press	3	8-10 rep	60-90 sec
Sled push	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: If technique breaks down, end the set there: one perfect rep beats five sloppy ones.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength · Gym

Session objective: Explosive strength focused on the posterior chain.

MOVEMENT EXAMPLE · SQUAT

Barbell front squat

EXERCISE	SETS	REPS	REST
Barbell front squat	3	8-10 rep	60-90 sec
Barbell Romanian deadlift	3	8-10 rep	60-90 sec
Box step-up with jump	3	8-10 rep	60-90 sec
Jump squat (light barbell)	3	8-10 rep	60-90 sec
Sled push	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: Progress by increasing the load only once you complete all sets at the top of the rep range.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Explosive Strength • Gym

Session objective: Maximum muscle recruitment with emphasis on the lower body.

MOVEMENT EXAMPLE • SQUAT

Leg press (fast start)

EXERCISE	SETS	REPS	REST
Leg press (fast start)	4	6-8 rep	90 sec
Walking lunge with dumbbells	4	6-8 rep	90 sec
Barbell hip thrust	4	6-8 rep	90 sec
Box step-up with jump	4	6-8 rep	90 sec
Barbell row	4	6-8 rep	90 sec

Intensity / execution: Moderate-to-high load (70-80% 1RM). Explosive start on every rep, without losing control of technique.

Coach's tip: Breathe: exhale on the effort (up phase) and inhale on the controlled descent.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Gym

Session objective: Strength applied to jumping and starting movements.

MOVEMENT EXAMPLE • SQUAT

Barbell front squat

EXERCISE	SETS	REPS	REST
Barbell front squat	4	6-8 rep	90 sec
Bulgarian split squat with dumbbells	4	6-8 rep	90 sec
Barbell bench press	4	6-8 rep	90 sec
Barbell row	4	6-8 rep	90 sec
Pull-ups (or lat pulldown)	4	6-8 rep	90 sec

Intensity / execution: Moderate-to-high load (70-80% 1RM). Explosive start on every rep, without losing control of technique.

Coach's tip: Warm up the hip and knee joints thoroughly before loading weight.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Gym

Session objective: Unilateral strength to balance both legs.

MOVEMENT EXAMPLE • HIP BRIDGE

Barbell hip thrust

EXERCISE	SETS	REPS	REST
Barbell hip thrust	4	6-8 rep	90 sec
Barbell bench press	4	6-8 rep	90 sec
Jump squat (light barbell)	4	6-8 rep	90 sec
Machine hip extension	4	6-8 rep	90 sec
Sled push	4	6-8 rep	90 sec

Intensity / execution: Moderate-to-high load (70-80% 1RM). Explosive start on every rep, without losing control of technique.

Coach's tip: Film yourself from the side once a week to review your squat or lunge technique.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength · Gym

Session objective: Transfer of strength to initial acceleration.

MOVEMENT EXAMPLE · HIP HINGE

Barbell Romanian deadlift

EXERCISE	SETS	REPS	REST
Barbell Romanian deadlift	4	6-8 rep	90 sec
Barbell hip thrust	4	6-8 rep	90 sec
Box step-up with jump	4	6-8 rep	90 sec
Barbell bench press	4	6-8 rep	90 sec
Jump squat (light barbell)	4	6-8 rep	90 sec

Intensity / execution: Moderate-to-high load (70-80% 1RM). Explosive start on every rep, without losing control of technique.

Coach's tip: Always aim for maximum speed on the lifting (concentric) phase, even with light loads.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Explosive Strength • Gym

Session objective: Combined upper- and lower-body strength.

MOVEMENT EXAMPLE • SQUAT

Leg press (fast start)

EXERCISE	SETS	REPS	REST
Leg press (fast start)	4	6-8 rep	90 sec
Walking lunge with dumbbells	4	6-8 rep	90 sec
Box step-up with jump	4	6-8 rep	90 sec
Pull-ups (or lat pulldown)	4	6-8 rep	90 sec
Machine hip extension	4	6-8 rep	90 sec

Intensity / execution: Moderate-to-high load (70-80% 1RM). Explosive start on every rep, without losing control of technique.

Coach's tip: Progress by increasing the load only once you complete all sets at the top of the rep range.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Gym

Session objective: Maximum muscle recruitment with emphasis on the lower body.

MOVEMENT EXAMPLE • HIP HINGE

Barbell Romanian deadlift

EXERCISE	SETS	REPS	REST
Barbell Romanian deadlift	5	4-6 rep	2-3 min
Barbell hip thrust	5	4-6 rep	2-3 min
Barbell bench press	5	4-6 rep	2-3 min
Barbell row	5	4-6 rep	2-3 min
Machine hip extension	5	4-6 rep	2-3 min

Intensity / execution: High load (80-85% 1RM). Maximum execution speed and full recovery between sets.

Coach's tip: Breathe: exhale on the effort (up phase) and inhale on the controlled descent.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Gym

Session objective: Strength applied to jumping and starting movements.

MOVEMENT EXAMPLE • LUNGE

Walking lunge with dumbbells

EXERCISE	SETS	REPS	REST
Walking lunge with dumbbells	5	4-6 rep	2-3 min
Barbell Romanian deadlift	5	4-6 rep	2-3 min
Pull-ups (or lat pulldown)	5	4-6 rep	2-3 min
Jump squat (light barbell)	5	4-6 rep	2-3 min
Machine hip extension	5	4-6 rep	2-3 min

Intensity / execution: High load (80-85% 1RM). Maximum execution speed and full recovery between sets.

Coach's tip: Warm up the hip and knee joints thoroughly before loading weight.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Intensity / execution: High load (80-85% 1RM). Maximum execution speed and full recovery between sets.

Coach's tip: Progress by increasing the load only once you complete all sets at the top of the rep range.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Functional

Session objective: Maximum muscle recruitment with emphasis on the lower body.

MOVEMENT EXAMPLE • JUMP / PLYOMETRICS

Alternating jumping lunge

EXERCISE	SETS	REPS	REST
Alternating jumping lunge	3	8-10 rep	60-90 sec
Box jump	3	8-10 rep	60-90 sec
Single-leg bound	3	8-10 rep	60-90 sec
Single-leg glute bridge	3	8-10 rep	60-90 sec
Lateral jumping lunge	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: Film yourself from the side once a week to review your squat or lunge technique.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Functional

Session objective: Strength applied to jumping and starting movements.

MOVEMENT EXAMPLE • JUMP / PLYOMETRICS
Jump squat (bodyweight)

EXERCISE	SETS	REPS	REST
Jump squat (bodyweight)	3	8-10 rep	60-90 sec
Alternating jumping lunge	3	8-10 rep	60-90 sec
Single-leg bound	3	8-10 rep	60-90 sec
Plank with shoulder taps	3	8-10 rep	60-90 sec
Chest medicine-ball throw	3	8-10 rep	60-90 sec

Intensity / execution: Moderate load (60-70% 1RM). Full priority on technique and on accelerating the concentric phase of each rep.

Coach's tip: Always aim for maximum speed on the lifting (concentric) phase, even with light loads.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Functional

Session objective: Unilateral strength to balance both legs.

Jump squat (bodyweight)

EXERCISE	SETS	REPS	REST
Jump squat (bodyweight)	5	4-6 rep	2-3 min
Lateral jump over a low hurdle	5	4-6 rep	2-3 min
Single-leg bound	5	4-6 rep	2-3 min
Mountain climber with resistance band	5	4-6 rep	2-3 min
Lateral jumping lunge	5	4-6 rep	2-3 min

Intensity / execution: High load (80-85% 1RM). Maximum execution speed and full recovery between sets.

Coach's tip: Progress by increasing the load only once you complete all sets at the top of the rep range.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Functional

Session objective: Combined upper- and lower-body strength.

MOVEMENT EXAMPLE • JUMP / PLYOMETRICS

Alternating jumping lunge

EXERCISE	SETS	REPS	REST
Alternating jumping lunge	5	4-6 rep	2-3 min
Box jump	5	4-6 rep	2-3 min
Mountain climber with resistance band	5	4-6 rep	2-3 min
Single-leg glute bridge	5	4-6 rep	2-3 min
Lateral jumping lunge	5	4-6 rep	2-3 min

Intensity / execution: High load (80-85% 1RM). Maximum execution speed and full recovery between sets.

Coach's tip: Breathe: exhale on the effort (up phase) and inhale on the controlled descent.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Explosive Strength • Functional

Session objective: Explosive strength focused on the posterior chain.

MOVEMENT EXAMPLE • DYNAMIC CORE

Explosive mountain climber

EXERCISE	SETS	REPS	REST
Explosive mountain climber	5	4-6 rep	2-3 min
Plank with shoulder taps	5	4-6 rep	2-3 min
Bodyweight Bulgarian split squat	5	4-6 rep	2-3 min
Chest medicine-ball throw	5	4-6 rep	2-3 min
Single-leg glute bridge	5	4-6 rep	2-3 min

Intensity / execution: High load (80-85% 1RM). Maximum execution speed and full recovery between sets.

Coach's tip: Warm up the hip and knee joints thoroughly before loading weight.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed

Improve acceleration, top speed, and change of direction: the actions that define the decisive moments of a match.

Functional · Basic Level — 6 routines (#55 to #60)

Functional · Intermediate Level — 6 routines (#61 to #66)

Functional · Advanced Level — 6 routines (#67 to #72)

Gym · Basic Level — 6 routines (#37 to #42)

Gym · Intermediate Level — 6 routines (#43 to #48)

Gym · Advanced Level — 6 routines (#49 to #54)

Speed • Gym

Session objective: Start technique and first steps.

MOVEMENT EXAMPLE • LUNGE
Single-leg press

EXERCISE	SETS	DISTANCE / DURATION	REST
Single-leg press	4-6	10-20 m	60-90 sec
Explosive calf raise	4-6	10-20 m	60-90 sec
Low-pulley hip extension	4-6	10-20 m	60-90 sec
Band hip rotation	4-6	10-20 m	60-90 sec
Anti-rotation core (Pallof press)	4-6	10-20 m	60-90 sec

Intensity / execution: Technical focus, submaximal intensity (80-90%). Full recovery between reps: quality rules over quantity.

Coach's tip: Full recovery between sets: speed is trained rested, not tired.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Gym

Session objective: Acceleration over short distances (0-20 m).

MOVEMENT EXAMPLE • LUNGE
Single-leg press

EXERCISE	SETS	DISTANCE / DURATION	REST
Single-leg press	4-6	10-20 m	60-90 sec
Bulgarian split squat with resistance band	4-6	10-20 m	60-90 sec
Resisted-band start on treadmill	4-6	10-20 m	60-90 sec
Band hip rotation	4-6	10-20 m	60-90 sec
March with knee drive and band	4-6	10-20 m	60-90 sec

Intensity / execution: Technical focus, submaximal intensity (80-90%). Full recovery between reps: quality rules over quantity.

Coach's tip: Work the acceleration phase (first steps) with the trunk leaning forward.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Gym

Session objective: Maximum speed over medium distances (20-40 m).

MOVEMENT EXAMPLE • LUNGE
Single-leg press

EXERCISE	SETS	DISTANCE / DURATION	REST
Single-leg press	4-6	10-20 m	60-90 sec
Explosive calf raise	4-6	10-20 m	60-90 sec
Low-pulley hip extension	4-6	10-20 m	60-90 sec
Hamstring bridge on a stability ball	4-6	10-20 m	60-90 sec
Band hip rotation	4-6	10-20 m	60-90 sec

Intensity / execution: Technical focus, submaximal intensity (80-90%). Full recovery between reps: quality rules over quantity.

Coach's tip: Record your times when you can: speed improvement shows in weeks, not days.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Gym

Session objective: Change of direction and braking.

MOVEMENT EXAMPLE • HIP HINGE
Low-pulley hip extension

EXERCISE	SETS	DISTANCE / DURATION	REST
Low-pulley hip extension	4-6	10-20 m	60-90 sec
Lunge with resistance band	4-6	10-20 m	60-90 sec
Hamstring bridge on a stability ball	4-6	10-20 m	60-90 sec
Band hip rotation	4-6	10-20 m	60-90 sec
Anti-rotation core (Pallof press)	4-6	10-20 m	60-90 sec

Intensity / execution: Technical focus, submaximal intensity (80-90%). Full recovery between reps: quality rules over quantity.

Coach's tip: Running technique matters more than effort: arms at 90°, eyes forward, active foot strike.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Gym

Session objective: Resisted speed work to build specific strength.

MOVEMENT EXAMPLE • POSTURAL / BALANCE
Explosive calf raise

EXERCISE	SETS	DISTANCE / DURATION	REST
Explosive calf raise	4-6	10-20 m	60-90 sec
Bulgarian split squat with resistance band	4-6	10-20 m	60-90 sec
Resisted-band start on treadmill	4-6	10-20 m	60-90 sec
Single-leg Romanian deadlift	4-6	10-20 m	60-90 sec
Band hip rotation	4-6	10-20 m	60-90 sec

Intensity / execution: Technical focus, submaximal intensity (80-90%). Full recovery between reps: quality rules over quantity.

Coach's tip: Never sprint at 100% without at least 10 minutes of prior activation.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Gym

Session objective: Reactive speed to a stimulus.

MOVEMENT EXAMPLE • HIP BRIDGE

Heavy hip thrust (sprint strength)

EXERCISE	SETS	DISTANCE / DURATION	REST
Heavy hip thrust (sprint strength)	4-6	10-20 m	60-90 sec
Bulgarian split squat with resistance band	4-6	10-20 m	60-90 sec
Hamstring bridge on a stability ball	4-6	10-20 m	60-90 sec
March with knee drive and band	4-6	10-20 m	60-90 sec
Anti-rotation core (Pallof press)	4-6	10-20 m	60-90 sec

Intensity / execution: Technical focus, submaximal intensity (80-90%). Full recovery between reps: quality rules over quantity.

Coach's tip: If you feel fatigue or discomfort in the hamstrings, lower the intensity immediately.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Gym

Session objective: Start technique and first steps.

MOVEMENT EXAMPLE • LUNGE
Bulgarian split squat with resistance band

EXERCISE	SETS	DISTANCE / DURATION	REST
Bulgarian split squat with resistance band	6-8	20-30 m	90-120 sec
Resisted-band start on treadmill	6-8	20-30 m	90-120 sec
Single-leg Romanian deadlift	6-8	20-30 m	90-120 sec
Lunge with resistance band	6-8	20-30 m	90-120 sec
March with knee drive and band	6-8	20-30 m	90-120 sec

Intensity / execution: High intensity (90-95%). Pay attention to running technique and trunk posture.

Coach's tip: Full recovery between sets: speed is trained rested, not tired.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Gym

Session objective: Acceleration over short distances (0-20 m).

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Functional

Session objective: Reactive speed to a stimulus.

MOVEMENT EXAMPLE • RUNNING / SPRINT

Linear sprint 10 m

EXERCISE	SETS	DISTANCE / DURATION	REST
Linear sprint 10 m	6-8	20-30 m	90-120 sec
Low skipping (heel-to-glute)	6-8	20-30 m	90-120 sec
Zigzag through cones	6-8	20-30 m	90-120 sec
Progressive acceleration 40 m	6-8	20-30 m	90-120 sec
Resisted sprint with band or parachute	6-8	20-30 m	90-120 sec

Intensity / execution: High intensity (90-95%). Pay attention to running technique and trunk posture.

Coach's tip: Work the acceleration phase (first steps) with the trunk leaning forward.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Functional

Session objective: Start technique and first steps.

MOVEMENT EXAMPLE • RUNNING / SPRINT

Linear sprint 10 m

EXERCISE	SETS	DISTANCE / DURATION	REST
Linear sprint 10 m	8-10	20-40 m	2-3 min
High-knee skipping	8-10	20-40 m	2-3 min
Explosive start from a low position	8-10	20-40 m	2-3 min
5-10-5 change of direction drill	8-10	20-40 m	2-3 min
Resisted sprint with band or parachute	8-10	20-40 m	2-3 min

Intensity / execution: Maximum intensity (95-100%). Full recovery is mandatory: never sprint with accumulated fatigue.

Coach's tip: Record your times when you can: speed improvement shows in weeks, not days.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Functional

Session objective: Acceleration over short distances (0-20 m).

MOVEMENT EXAMPLE • RUNNING / SPRINT

Linear sprint 10 m

EXERCISE	SETS	DISTANCE / DURATION	REST
Linear sprint 10 m	8-10	20-40 m	2-3 min
Linear sprint 30 m	8-10	20-40 m	2-3 min
Agility ladder (in-in-out-out)	8-10	20-40 m	2-3 min
Explosive start from a low position	8-10	20-40 m	2-3 min
Sprint with light sled (sled sprint)	8-10	20-40 m	2-3 min

Intensity / execution: Maximum intensity (95-100%). Full recovery is mandatory: never sprint with accumulated fatigue.

Coach's tip: Running technique matters more than effort: arms at 90°, eyes forward, active foot strike.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Functional

Session objective: Maximum speed over medium distances (20-40 m).

MOVEMENT EXAMPLE • RUNNING / SPRINT

Linear sprint 30 m

EXERCISE	SETS	DISTANCE / DURATION	REST
Linear sprint 30 m	8-10	20-40 m	2-3 min
High-knee skipping	8-10	20-40 m	2-3 min
Agility ladder (in-in-out-out)	8-10	20-40 m	2-3 min
Zigzag through cones	8-10	20-40 m	2-3 min
Progressive acceleration 40 m	8-10	20-40 m	2-3 min

Intensity / execution: Maximum intensity (95-100%). Full recovery is mandatory: never sprint with accumulated fatigue.

Coach's tip: Never sprint at 100% without at least 10 minutes of prior activation.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Functional

Session objective: Change of direction and braking.

MOVEMENT EXAMPLE • RUNNING / SPRINT

Linear sprint 10 m

EXERCISE	SETS	DISTANCE / DURATION	REST
Linear sprint 10 m	8-10	20-40 m	2-3 min
Linear sprint 30 m	8-10	20-40 m	2-3 min
Low skipping (heel-to-glute)	8-10	20-40 m	2-3 min
Agility ladder (in-in-out-out)	8-10	20-40 m	2-3 min
Sprint with light sled (sled sprint)	8-10	20-40 m	2-3 min

Intensity / execution: Maximum intensity (95-100%). Full recovery is mandatory: never sprint with accumulated fatigue.

Coach's tip: If you feel fatigue or discomfort in the hamstrings, lower the intensity immediately.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Functional

Session objective: Resisted speed work to build specific strength.

MOVEMENT EXAMPLE • RUNNING / SPRINT

Linear sprint 10 m

EXERCISE	SETS	DISTANCE / DURATION	REST
Linear sprint 10 m	8-10	20-40 m	2-3 min
Explosive start from a low position	8-10	20-40 m	2-3 min
Short hill sprint	8-10	20-40 m	2-3 min
Sprint with light sled (sled sprint)	8-10	20-40 m	2-3 min
Stop-and-go (start-stop)	8-10	20-40 m	2-3 min

Intensity / execution: Maximum intensity (95-100%). Full recovery is mandatory: never sprint with accumulated fatigue.

Coach's tip: Full recovery between sets: speed is trained rested, not tired.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Speed • Functional

Session objective: Reactive speed to a stimulus.

MOVEMENT EXAMPLE • RUNNING / SPRINT

Linear sprint 10 m

EXERCISE	SETS	DISTANCE / DURATION	REST
Linear sprint 10 m	8-10	20-40 m	2-3 min
Linear sprint 20 m	8-10	20-40 m	2-3 min
Low skipping (heel-to-glute)	8-10	20-40 m	2-3 min
5-10-5 change of direction drill	8-10	20-40 m	2-3 min
Sprint with light sled (sled sprint)	8-10	20-40 m	2-3 min

Intensity / execution: Maximum intensity (95-100%). Full recovery is mandatory: never sprint with accumulated fatigue.

Coach's tip: Work the acceleration phase (first steps) with the trunk leaning forward.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance

Raise your capacity to repeat high-intensity efforts throughout the 90 minutes without a drop in physical or technical performance.

Functional · Basic Level — 6 routines (#91 to #96)

Functional · Intermediate Level — 6 routines (#97 to #102)

Functional · Advanced Level — 6 routines (#103 to #108)

Gym · Basic Level — 6 routines (#73 to #78)

Gym · Intermediate Level — 6 routines (#79 to #84)

Gym · Advanced Level — 6 routines (#85 to #90)

Endurance • Gym

Session objective: General aerobic base.

MOVEMENT EXAMPLE • CARDIO / CIRCUIT

Stationary bike (intervals)

NO.	STATION	WORK TIME	TRANSITION
1	Stationary bike (intervals)	30 sec work	10-15 sec
2	Rowing machine (intervals)	30 sec work	10-15 sec
3	Continuous mountain climbers	30 sec work	10-15 sec
4	Continuous alternating lunges	30 sec work	10-15 sec
5	Jump rope	30 sec work	10-15 sec
6	Kettlebell complex (swing + squat + row)	30 sec work	10-15 sec

Structure: 3 rounds, 30 sec rest between complete rounds.

Intensity / execution: Moderate intensity (RPE 5-6/10). Maintain technique at every station.

Coach's tip: Use this session as a gauge: if it feels much harder than last week, review your recovery.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance · Gym

Session objective: Endurance at match-specific intensity.

MOVEMENT EXAMPLE · DYNAMIC CORE

Continuous mountain climbers

NO.	STATION	WORK TIME	TRANSITION
1	Continuous mountain climbers	30 sec work	10-15 sec
2	Battle rope	30 sec work	10-15 sec
3	Continuous step-up alternating legs	30 sec work	10-15 sec
4	Dynamic plank with lateral travel	30 sec work	10-15 sec
5	Continuous alternating lunges	30 sec work	10-15 sec
6	Goblet squat in a circuit	30 sec work	10-15 sec

Structure: 3 rounds, 30 sec rest between complete rounds.

Intensity / execution: Moderate intensity (RPE 5-6/10). Maintain technique at every station.

Coach's tip: Alternate upper- and lower-body stations to avoid localized fatigue build-up.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Endurance • Gym

Session objective: Ability to repeat short, intense efforts.

MOVEMENT EXAMPLE • CARDIO / CIRCUIT
Stationary bike (intervals)

NO.	STATION	WORK TIME	TRANSITION
1	Stationary bike (intervals)	30 sec work	10-15 sec
2	Jump squat in a circuit	30 sec work	10-15 sec
3	Continuous mountain climbers	30 sec work	10-15 sec
4	Continuous step-up alternating legs	30 sec work	10-15 sec
5	Dynamic plank with lateral travel	30 sec work	10-15 sec
6	Kettlebell complex (swing + squat + row)	30 sec work	10-15 sec

Structure: 3 rounds, 30 sec rest between complete rounds.

Intensity / execution: Moderate intensity (RPE 5-6/10). Maintain technique at every station.

Coach's tip: The goal is to sustain intensity from start to finish, not to start hard and fade.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance · Gym

Session objective: Endurance with a technical-tactical component.

MOVEMENT EXAMPLE · HIP HINGE
Kettlebell swing

NO.	STATION	WORK TIME	TRANSITION
1	Kettlebell swing	30 sec work	10-15 sec
2	Jump squat in a circuit	30 sec work	10-15 sec
3	Continuous mountain climbers	30 sec work	10-15 sec
4	Dynamic plank with lateral travel	30 sec work	10-15 sec
5	Kettlebell complex (swing + squat + row)	30 sec work	10-15 sec
6	Goblet squat in a circuit	30 sec work	10-15 sec

Structure: 3 rounds, 30 sec rest between complete rounds.

Intensity / execution: Moderate intensity (RPE 5-6/10). Maintain technique at every station.

Coach's tip: Keep good technique at every station even when tired: endurance shouldn't break your form.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Endurance • Gym

Session objective: High-intensity interval endurance.

MOVEMENT EXAMPLE • HIP HINGE

Kettlebell swing

NO.	STATION	WORK TIME	TRANSITION
1	Kettlebell swing	30 sec work	10-15 sec

Continuous run at moderate pace

NO.	STATION	WORK TIME	TRANSITION
1	Continuous run at moderate pace	30 sec work	10-15 sec
2	400 m repeats	30 sec work	10-15 sec
3	Station circuit (strength + cardio + agility)	30 sec work	10-15 sec
4	Field HIIT 30/30	30 sec work	10-15 sec
5	Adapted Yo-Yo intermittent test	30 sec work	10-15 sec
6	Functional circuit with hurdles and cones	30 sec work	10-15 sec

Structure: 3 rounds, 30 sec rest between complete rounds.

Intensity / execution: Moderate intensity (RPE 5-6/10). Maintain technique at every station.

Coach's tip: Alternate upper- and lower-body stations to avoid localized fatigue build-up.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance • Functional

Session objective: General aerobic base.

MOVEMENT EXAMPLE • RUNNING / SPRINT

Continuous run at moderate pace

NO.	STATION	WORK TIME	TRANSITION
1	Continuous run at moderate pace	40 sec work	10-15 sec
2	Intensity ladder run	40 sec work	10-15 sec
3	Sprint + recovery jog	40 sec work	10-15 sec
4	Repeated hill sprint	40 sec work	10-15 sec
5	Shuttle run (there and back)	40 sec work	10-15 sec
6	Metabolic circuit with medicine ball	40 sec work	10-15 sec

Structure: 4 rounds, 20 sec rest between complete rounds.

Intensity / execution: High intensity (RPE 7-8/10). Minimal loss of movement quality.

Coach's tip: The goal is to sustain intensity from start to finish, not to start hard and fade.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance • Functional

Session objective: Endurance at match-specific intensity.

MOVEMENT EXAMPLE • RUNNING / SPRINT

400 m repeats

NO.	STATION	WORK TIME	TRANSITION
1	400 m repeats	40 sec work	10-15 sec
2	Station circuit (strength + cardio + agility)	40 sec work	10-15 sec
3	Intense rondo (small-sided possession)	40 sec work	10-15 sec
4	Sprint + recovery jog	40 sec work	10-15 sec
5	Functional circuit with hurdles and cones	40 sec work	10-15 sec
6	Interval bike or rowing	40 sec work	10-15 sec

Structure: 4 rounds, 20 sec rest between complete rounds.

Intensity / execution: High intensity (RPE 7-8/10). Minimal loss of movement quality.

Coach's tip: Keep good technique at every station even when tired: endurance shouldn't break your form.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance • Functional

Session objective: Ability to repeat short, intense efforts.

MOVEMENT EXAMPLE • RUNNING / SPRINT
Continuous run at moderate pace

NO.	STATION	WORK TIME	TRANSITION
1	Continuous run at moderate pace	40 sec work	10-15 sec
2	400 m repeats	40 sec work	10-15 sec
3	Station circuit (strength + cardio + agility)	40 sec work	10-15 sec
4	Sprint + recovery jog	40 sec work	10-15 sec
5	Functional circuit with hurdles and cones	40 sec work	10-15 sec
6	Repeated hill sprint	40 sec work	10-15 sec

Structure: 4 rounds, 20 sec rest between complete rounds.

Intensity / execution: High intensity (RPE 7-8/10). Minimal loss of movement quality.

Coach's tip: Hydrate before, during, and after the session, especially in hot weather.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance • Functional

Session objective: Endurance with a technical-tactical component.

MOVEMENT EXAMPLE • RUNNING / SPRINT

Fartlek on the pitch

NO.	STATION	WORK TIME	TRANSITION
1	Fartlek on the pitch	40 sec work	10-15 sec
2	Continuous run at moderate pace	40 sec work	10-15 sec
3	Intense rondo (small-sided possession)	40 sec work	10-15 sec
4	Field HIIT 30/30	40 sec work	10-15 sec
5	Adapted Yo-Yo intermittent test	40 sec work	10-15 sec
6	Interval bike or rowing	40 sec work	10-15 sec

Structure: 4 rounds, 20 sec rest between complete rounds.

Intensity / execution: High intensity (RPE 7-8/10). Minimal loss of movement quality.

Coach's tip: If your heart rate doesn't drop during the rest, extend it a few seconds before continuing.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Endurance · Functional

Session objective: High-intensity interval endurance.

MOVEMENT EXAMPLE · RUNNING / SPRINT

Continuous run at moderate pace

NO.	STATION	WORK TIME	TRANSITION

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power

Combine strength and speed to jump, shoot, strike, and start with maximum possible explosiveness.

Functional · Basic Level — 6 routines (#127 to #132)

Functional · Intermediate Level — 6 routines (#133 to #138)

Functional · Advanced Level — 6 routines (#139 to #144)

Gym · Basic Level — 6 routines (#109 to #114)

Gym · Intermediate Level — 6 routines (#115 to #120)

Gym · Advanced Level — 6 routines (#121 to #126)

Power • Gym

Session objective: Lower-body power applied to jumping.

MOVEMENT EXAMPLE • HIP HINGE

Power clean

EXERCISE	SETS	REPS	REST
Power clean	3	5-6 rep	2 min
Push press	3	5-6 rep	2 min
Medicine-ball throw from a squat	3	5-6 rep	2 min
Kettlebell snatch	3	5-6 rep	2 min
Explosive cable hip extension	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: Warm up with ankle and hip mobility and glute activation before jumping.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power • Gym

Session objective: Upper-body power applied to shooting and duels.

MOVEMENT EXAMPLE • HIP HINGE

Power clean

EXERCISE	SETS	REPS	REST
Power clean	3	5-6 rep	2 min
Dumbbell snatch	3	5-6 rep	2 min
Loaded jump squat (trap bar)	3	5-6 rep	2 min
Push press	3	5-6 rep	2 min
Medicine-ball throw from a squat	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: Progress in volume (more sets) before intensity (more weight or height).

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power · Gym

Session objective: Combined power (full body).

MOVEMENT EXAMPLE · HIP HINGE

Power clean

EXERCISE	SETS	REPS	REST
Power clean	3	5-6 rep	2 min
Dumbbell snatch	3	5-6 rep	2 min
Explosive bench press (speed)	3	5-6 rep	2 min
Assisted jump squat (Smith machine)	3	5-6 rep	2 min
Explosive cable hip extension	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: These exercises are high-impact: do at most 2-3 power sessions per week.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Power · Gym

Session objective: Reactive power (stretch-shortening cycle).

MOVEMENT EXAMPLE · HIP HINGE

Power clean

EXERCISE	SETS	REPS	REST
Power clean	3	5-6 rep	2 min
Heavy kettlebell swing	3	5-6 rep	2 min
Assisted jump squat (Smith machine)	3	5-6 rep	2 min
Kettlebell snatch	3	5-6 rep	2 min
Loaded jumping lunge	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: Every rep must be explosive: if execution speed drops, end the set.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Power • Gym

Session objective: Unilateral power.

MOVEMENT EXAMPLE • HIP HINGE

Power clean

EXERCISE	SETS	REPS	REST
Power clean	3	5-6 rep	2 min
Dumbbell snatch	3	5-6 rep	2 min
Explosive bench press (speed)	3	5-6 rep	2 min
Deadlift with jump	3	5-6 rep	2 min
Loaded jumping lunge	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: Prioritize landing technique: knees aligned, soft and controlled landing.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power · Gym

Session objective: Maximum power with heavy loads.

MOVEMENT EXAMPLE · HIP HINGE

Power clean

EXERCISE	SETS	REPS	REST
Power clean	3	5-6 rep	2 min
Dumbbell snatch	3	5-6 rep	2 min
Medicine-ball throw from a squat	3	5-6 rep	2 min
Heavy kettlebell swing	3	5-6 rep	2 min
Explosive cable hip extension	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: Full rest is part of the training: power is lost with accumulated fatigue.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Power · Gym

Session objective: Lower-body power applied to jumping.

MOVEMENT EXAMPLE · HIP HINGE

Dumbbell snatch

EXERCISE	SETS	REPS	REST

EXERCISE	SETS	REPS	REST
Hurdle hop	3	5-6 rep	2 min
Alternate bounding (long jumping lunge)	3	5-6 rep	2 min
180° turning jump	3	5-6 rep	2 min
Ankle plyometrics (ankle hops)	3	5-6 rep	2 min
Reactive jumps over a series of low hurdles	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: Warm up with ankle and hip mobility and glute activation before jumping.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Power • Functional

Session objective: Maximum power with heavy loads.

MOVEMENT EXAMPLE • JUMP / PLYOMETRICS

Hurdle hop

EXERCISE	SETS	REPS	REST
Hurdle hop	3	5-6 rep	2 min
Rotational medicine-ball throw	3	5-6 rep	2 min
Overhead medicine-ball throw	3	5-6 rep	2 min
Reactive lateral jump	3	5-6 rep	2 min
180° turning jump	3	5-6 rep	2 min

Intensity / execution: Light-to-moderate load. Absolute priority on technique and execution speed, not on the weight.

Coach's tip: Progress in volume (more sets) before intensity (more weight or height).

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power • Functional

Session objective: Lower-body power applied to jumping.

MOVEMENT EXAMPLE • JUMP / PLYOMETRICS
Depth jump

EXERCISE	SETS	REPS	REST
Depth jump	4	4-5 rep	2-3 min
Rotational medicine-ball throw	4	4-5 rep	2-3 min
Overhead medicine-ball throw	4	4-5 rep	2-3 min
Alternate bounding (long jumping lunge)	4	4-5 rep	2-3 min
Ankle plyometrics (ankle hops)	4	4-5 rep	2-3 min

Intensity / execution: Moderate load. Explosive execution on every rep, stopping the set at the first sign of speed loss.

Coach's tip: These exercises are high-impact: do at most 2-3 power sessions per week.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power • Functional

Session objective: Upper-body power applied to shooting and duels.

MOVEMENT EXAMPLE • JUMP / PLYOMETRICS
Depth jump

EXERCISE	SETS	REPS	REST
Depth jump	4	4-5 rep	2-3 min
Countermovement vertical jump	4	4-5 rep	2-3 min
Repeated single-leg jump (rebound)	4	4-5 rep	2-3 min
Chest-pass medicine-ball throw	4	4-5 rep	2-3 min
Ankle plyometrics (ankle hops)	4	4-5 rep	2-3 min

Intensity / execution: Moderate load. Explosive execution on every rep, stopping the set at the first sign of speed loss.

Coach's tip: Every rep must be explosive: if execution speed drops, end the set.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power • Functional

Session objective: Combined power (full body).

MOVEMENT EXAMPLE • JUMP / PLYOMETRICS

Depth jump

EXERCISE	SETS	REPS	REST
Depth jump	4	4-5 rep	2-3 min
Countermovement vertical jump	4	4-5 rep	2-3 min
Repeated single-leg jump (rebound)	4	4-5 rep	2-3 min
Ankle plyometrics (ankle hops)	4	4-5 rep	2-3 min
Reactive jumps over a series of low hurdles	4	4-5 rep	2-3 min

Intensity / execution: Moderate load. Explosive execution on every rep, stopping the set at the first sign of speed loss.

Coach's tip: Prioritize landing technique: knees aligned, soft and controlled landing.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power • Functional

Session objective: Reactive power (stretch-shortening cycle).

MOVEMENT EXAMPLE • THROW
Overhead medicine-ball throw

EXERCISE	SETS	REPS	REST
Overhead medicine-ball throw	4	4-5 rep	2-3 min
Reactive lateral jump	4	4-5 rep	2-3 min
Repeated single-leg jump (rebound)	4	4-5 rep	2-3 min
Box jump with controlled landing	4	4-5 rep	2-3 min
Ankle plyometrics (ankle hops)	4	4-5 rep	2-3 min

Intensity / execution: Moderate load. Explosive execution on every rep, stopping the set at the first sign of speed loss.

Coach's tip: Full rest is part of the training; power is lost with accumulated fatigue.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Power · Functional

Session objective: Unilateral power.

MOVEMENT EXAMPLE · JUMP / PLYOMETRICS

Depth jump

EXERCISE	SETS	REPS	REST
Depth jump	4	4-5 rep	2-3 min
Countermovement vertical jump	4	4-5 rep	2-3 min
Alternate bounding (long jumping lunge)	4	4-5 rep	2-3 min
Chest-pass medicine-ball throw	4	4-5 rep	2-3 min
Reactive jumps over a series of low hurdles	4	4-5 rep	2-3 min

Intensity / execution: Moderate load. Explosive execution on every rep, stopping the set at the first sign of speed loss.

Coach's tip: Warm up with ankle and hip mobility and glute activation before jumping.

Intensity / execution: High load / maximum neuromuscular demand. Full recovery between sets to maintain power output.

Coach's tip: Progress in volume (more sets) before intensity (more weight or height).

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Core & Injury Prevention

Strengthen the body's center and shield the areas most prone to injury in football: hamstrings, adductors, knees, and ankles.

Functional · Basic Level — 6 routines (#145 to #150)

Functional · Intermediate Level — 6 routines (#151 to #156)

Functional · Advanced Level — 6 routines (#157 to #162)

Core & Injury Prevention • Functional

Session objective: Activation and postural control.

MOVEMENT EXAMPLE • STATIC CORE
Side plank

EXERCISE	SETS	DURATION / REPS	REST
Side plank	2-3	30-40 sec / 10-12 rep	30-45 sec
Pallof press (anti-rotation)	2-3	30-40 sec / 10-12 rep	30-45 sec
Two-leg glute bridge	2-3	30-40 sec / 10-12 rep	30-45 sec
Copenhagen plank (adductors)	2-3	30-40 sec / 10-12 rep	30-45 sec
Bird-dog	2-3	30-40 sec / 10-12 rep	30-45 sec
Ab wheel rollout	2-3	30-40 sec / 10-12 rep	30-45 sec

Intensity / execution: Prioritize postural control and correct activation before adding load.

Coach's tip: Progress in control and stability first, before adding instability or external load.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Core & Injury Prevention • Functional

Session objective: Hip stability and hamstring injury prevention.

MOVEMENT EXAMPLE • HIP HINGE

Nordic hamstring curl

EXERCISE	SETS	DURATION / REPS	REST
Nordic hamstring curl	2-3	30-40 sec / 10-12 rep	30-45 sec
Single-leg balance on unstable surface	2-3	30-40 sec / 10-12 rep	30-45 sec
Bird-dog	2-3	30-40 sec / 10-12 rep	30-45 sec
Controlled single-leg squat	2-3	30-40 sec / 10-12 rep	30-45 sec
Bosu proprioception work	2-3	30-40 sec / 10-12 rep	30-45 sec
Band hip raise (gluteus medius)	2-3	30-40 sec / 10-12 rep	30-45 sec

Intensity / execution: Prioritize postural control and correct activation before adding load.

Coach's tip: Quality of activation matters more than time held: really contract the abs.

SESSION LOG (DATE • LOAD OR INTENSITY USED • RPE 1-10 • HOW IT FELT)

Core & Injury Prevention · Functional

Session objective: Prevention of adductor and knee injuries.

MOVEMENT EXAMPLE · STATIC CORE

Side plank

EXERCISE	SETS	DURATION / REPS	REST
Side plank	2-3	30-40 sec / 10-12 rep	30-45 sec
Pallof press (anti-rotation)	2-3	30-40 sec / 10-12 rep	30-45 sec
Single-leg balance on unstable surface	2-3	30-40 sec / 10-12 rep	30-45 sec
Dead bug	2-3	30-40 sec / 10-12 rep	30-45 sec
Band hip raise (gluteus medius)	2-3	30-40 sec / 10-12 rep	30-45 sec
Ab wheel rollout	2-3	30-40 sec / 10-12 rep	30-45 sec

Intensity / execution: Prioritize postural control and correct activation before adding load.

Coach's tip: Breathe normally during isometric exercises, without holding your breath.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Core & Injury Prevention · Functional

Session objective: Ankle stability and proprioception.

MOVEMENT EXAMPLE · STATIC CORE

Front plank

EXERCISE	SETS	DURATION / REPS	REST
Front plank	2-3	30-40 sec / 10-12 rep	30-45 sec
Pallof press (anti-rotation)	2-3	30-40 sec / 10-12 rep	30-45 sec
Two-leg glute bridge	2-3	30-40 sec / 10-12 rep	30-45 sec
Copenhagen plank (adductors)	2-3	30-40 sec / 10-12 rep	30-45 sec
Dead bug	2-3	30-40 sec / 10-12 rep	30-45 sec
Controlled single-leg squat	2-3	30-40 sec / 10-12 rep	30-45 sec

Intensity / execution: Prioritize postural control and correct activation before adding load.

Coach's tip: These exercises are ideal as part of the warm-up before any session.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Core & Injury Prevention · Functional

Session objective: Dynamic and anti-rotation core.

MOVEMENT EXAMPLE · STATIC CORE

Side plank

EXERCISE	SETS	DURATION / REPS	REST
Side plank	2-3	30-40 sec / 10-12 rep	30-45 sec
Two-leg glute bridge	2-3	30-40 sec / 10-12 rep	30-45 sec
Nordic hamstring curl	2-3	30-40 sec / 10-12 rep	30-45 sec
Bird-dog	2-3	30-40 sec / 10-12 rep	30-45 sec
Dead bug	2-3	30-40 sec / 10-12 rep	30-45 sec
Controlled single-leg squat	2-3	30-40 sec / 10-12 rep	30-45 sec

Intensity / execution: Prioritize postural control and correct activation before adding load.

Coach's tip: Hamstring work (Nordics) is among the most effective at reducing muscle-injury risk.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Core & Injury Prevention · Functional

Session objective: Core integrated with functional movement.

MOVEMENT EXAMPLE · STATIC CORE

Front plank

EXERCISE	SETS	DURATION / REPS	REST
Front plank	2-3	30-40 sec / 10-12 rep	30-45 sec
Side plank	2-3	30-40 sec / 10-12 rep	30-45 sec
Two-leg glute bridge	2-3	30-40 sec / 10-12 rep	30-45 sec
Bird-dog	2-3	30-40 sec / 10-12 rep	30-45 sec
Dead bug	2-3	30-40 sec / 10-12 rep	30-45 sec
Trunk rotation with medicine ball	2-3	30-40 sec / 10-12 rep	30-45 sec

Intensity / execution: Prioritize postural control and correct activation before adding load.

Coach's tip: Add 2-3 core sessions per week, even during match weeks.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Core & Injury Prevention · Functional

Session objective: Activation and postural control.

MOVEMENT EXAMPLE · STATIC CORE

Side plank

EXERCISE	SETS	DURATION / REPS	REST
Side plank	3	40-50 sec / 12-15 rep	30 sec
Pallof press (anti-rotation)	3	40-50 sec / 12-15 rep	30 sec

Ab wheel rollout	3-4	45-60 sec / 15 rep	20-30 sec

Intensity / execution: Unstable and combined progressions, with minimal rest between sets.

Coach's tip: Add 2-3 core sessions per week, even during match weeks.

SESSION LOG (DATE · LOAD OR INTENSITY USED · RPE 1-10 · HOW IT FELT)

Tracking and progression

Keeping a simple log of your training is one of the most effective ways to progress. For each routine, note: the date, the load or intensity used, and how you felt (RPE from 1 to 10).

DATE	ROUTINE No.	LOAD / INTENSITY	RPE (1-10)	NOTES

The difference on the pitch is built through consistency off it. Time to train!
